

Session Program

13 November 2025

HPC for Impact: Turning Research into Innovation

**Intelligent Anomaly Detection in Manufacturing
A Multi-Sensor ML Approach to Predictive
Maintenance, Chen Li - Associate Professor,
Department of Materials and Production,
Aalborg University**

Thursday 13 November

14:05

14:20

Intelligent Anomaly Detection in Manufacturing A Multi-Sensor ML Approach to Predictive Maintenance, Chen Li - Associate Professor, Department of Materials and Production, Aalborg University

Session | Location:
